Transport Assets

HSSE and Compliance

Operators

- Trained to a very high standard and compliant with British Standard 15513:2000 & BS 7121-3:2000 Code of practice for safe use of cranes and LOLER
- Also adhere to the International association of Oil and Gas Producers (OGP) report 376

In Vehicle Monitoring System

- RedMed trucks are fitted with highly reliable Siemens VDO FM 300 Locator driver monitoring systems giving valuable information on driver's performance and routes as part of the Land Transport Management System (LTMS) and RedMed HSE requirements
- Trips are immediately analyzed and any infringements or irregularities are reviewed and corrected.

Cranes

- 16 LIEBHERR LTM series all terrain cranes ranging from 40 – 100 tonne capacity.
- All cranes are serviced to the manufacturer's recommendations, 2 Liebherr trained technicians (1 expat & 1 Algerian) plus we have a team of mechanics in case of problems.
- Cranes & lifting accessories are certified at intervals as per Algerian and International regulations

Trailers

- **Flat Bed** – Heavy duty oilfield trailers with a capacity of 45 tons; built by DOLL in Germany
- **Low Boy** – Heavy duty trailers with a capacity of 75 tons; built by DOLL in Germany with double hydraulic non slip ramps. Standard 3M width, extendable to 3.5M with twist locks for 20' & 40' containers
- **Extendable** – 15M, hydraulically extendable to 22M; Standard 3M width, extendable to 3.5M with twist locks and can be fitted with pipe racks and side posts.
 - Depending on travelling speed, has varying capacities ranging from 80,000Kg @ 80km/hr, up to 108,000Kg at 25km/hr.

Thank you
